

CONSUMABLES AVAILABLE!

Phonemic Awareness Homework Booklets

NOTE: It is Estrellita's policy that we sell the consumables only to those customers who have previously ordered the Games & Activities (or the PreK program, which includes Games & Activities). This is to ensure that the students receive the full benefit of the program. For your convenience, we have included the Games & Activities on this order form.

Mi libro de la "o"

The *Phonemic Awareness Homework Booklets* (part of the *Games & Activities* component) are now available as consumables! No more running to the copy machine at the last minute! Order in class sets of 25 or 35 units. Each unit contains 31 booklets. Each booklet focuses on one sound and its corresponding picture. There is a booklet for each of the 31 pictures and letters on the *Sonidos Iniciales* Wall Chart. These home study booklets which parents read to their children, are a wonderful tool to help parents stimulate phonemic awareness in their children through stories, chants, cheers and riddles related to the letter sounds. As these are the same chants, stories, cheers and riddles that children practice in the classroom, they also serve to reinforce classroom instruction. Each booklet, representing one letter sound, contains directions to the parents as well as that letter's chant, story, cheer and riddle, and pictures of other objects

that begin with that sound. An added bonus is that these booklets can later serve as beginning reading material once children become emergent readers. They will have already memorized the stories, cheers, etc., which will aid them in decoding some of the words in the booklets.
